

# JACKED

## BEFORE WATCHING THE FILM

Picture: Danish Film Institute

### 1. Cinematic terms

The class will be divided into four groups and compete at presenting and guessing the definition of [cinematic terms](#). There will be three rounds using the same cards.

- a. Round 1: A person in Group 1 will receive a cinematic term on a piece of paper. The person will describe the term in as many words as possible without saying the term itself. That person's group has the first chance to guess what the term is. If they are unable to, another group will get a chance to answer. Then it is Group 2's turn, and so forth.
- b. Round 2: Same procedure as round 1, but now the groups will draw the terms.
- c. Round 3: Same procedure as round 1, but now the groups will act out/mime the terms.

### 2. Theme

Define the words *fate* and *existentialism*. Discuss whether they are similar or opposite.

### 3. What might happen

Look up the word *jacked* in an English dictionary. What are the different meanings of the word? Pick one definition and write down what the film might be about. Discuss the different suggestions in groups of four.
